City of Choctaw  
Special Board of Adjustments Meeting  
April 16, 2020 @ 7:00pm  
Choctaw City Hall, 2500 N Choctaw Road  
Choctaw, Oklahoma 73020

In accordance with Senate bill 661, which temporarily modified the Open Meeting Act as approved by Governor Stitt on March 18, 2020, the Choctaw Planning Commission will host a virtual meeting option until the State of Emergency is lifted. Please join us using either option.

Teleconference dial in number:  +1 301 715 8592  
Conference ID: 681 979 612  
Meeting Password: 018976  
Join Meeting:  
https://us02web.zoom.us/j/681979612?pwd=OHUyZUMyZwg0UURrRkU4M0s5OVpMdz09

1. Call to Order.
2. Invocation and Pledge of Allegiance.
3. Roll Call.  
Ray Sikes, Lloyd DeShazo, and Dave Murdock will be joining the meeting via teleconference.

4. Business Agenda: The following items are hereby designated for discussion and consideration which requires individual action.

6. Adjournment:

This agenda was posted in prominent public view at Choctaw City Hall on or prior to 5:00pm on April 9, 2020 in accordance with the Oklahoma Open Meeting Act.

Amanda Valent, City Clerk

THE CITY OF CHOCTAW ENCOURAGES PARTICIPATION FROM ALL ITS CITIZENS. IF PARTICIPATION AT ANY PUBLIC MEETING IS NOT POSSIBLE DUE TO A DISABILITY, PLEASE NOTIFY THE CITY CLERK AT LEAST TWENTY-FOUR (24) HOURS PRIOR TO THE SCHEDULED MEETING SO THAT NECESSARY ACCOMMODATIONS CAN BE MADE. ACCESS TO RESTROOMS DURING THE MEETING WILL BE AVAILABLE UPON REQUEST TO CITY STAFF.
AGENDA TITLE: A Variance Request Application for 15870 SE 29th Street, submitted by Paul Maxwell

General Report:  
Paul Maxwell is the variance request applicant for this 2.5 acre R-R "Rural Residential District" tract of land (assuming City Council approved the request to rezone to R-R "Rural Residential District" from A-G "General Agricultural District").

The applicant is requesting a variance to §12-263 Area and Height Regulations, specifically the minimum lot frontage width requirement of a minimum of 110 feet in order to subdivide the subject site in the future.

The current lot width is 184.8 feet and requested lot widths are 119.8 feet proposed, Tract A and 65 feet for proposed Track B.

Staff Comments:  
City Water & Sewer - existing twelve (12) inch water line in the SE 29th Street right-of-way. Connection to City Water will be required with any future development or large improvements on Mr. Maxwell's property. The residential property is served by a private septic system due to being out of the serviceable boundary for city sanitary sewer.

Comprehensive Plan: The subject site falls within the "Rural protection boundary" on the future density plan, which notes a development density of 0.5-1 dwelling unit per acre. This request is also consistent with the Future Land Use Plan which delineates this area as Low Density Residential, which is defined as single-family homes with lots that are typically one acre or larger excluding rights of way.

The future land use designation for the property is Regional Business, which is described as: retail and professional office activities that aim to meet the needs of both local and regional residents.
Paul Maxwell is the owner of this 2.5 acre tract of land located at 15870 SE 29th Street. Mr. Maxwell’s property is currently zoned A-G “General Agricultural District” but he has a request to rezone to R-R “Rural Residential District” under review. The Planning Commission had a public hearing regarding this request on March 5th, 2020 and recommended approval of the rezone. City Council will review request on March 17th, 2020. So at the time of this report was written, the request had not been reviewed by the City Council. If the City Council does not approve Mr. Maxwell’s rezoning request, the request before the Board of Adjustment will no longer be valid.

The request before the Board of Adjustment is for a variance to the minimum lot frontage in order for Mr. Maxwell to apply for a lot split for his 2.5 acre tract and then apply for a lot merge for the eastern divided piece with the property located directly south (shown in blue below) of the subject site. The southern parcel is currently owned by Mr. Maxwell, however, it does not have access to any right-of-way; therefore, Mr. Maxwell is going through this process to allow for access to the four (4) acre southern piece he owns.
**APPLICANT PROPOSAL**

The applicant is requesting a variance to §12-263 Area and Height Regulations, specifically the minimum lot frontage width to allow for an application for a short form subdivision (lot split). The current lot width is 184.8 feet and requested lot widths are 119.8 feet for proposed Tract A and 65 feet for proposed Tract B. Below is the specific language as listed in the City Code regarding the lot width requirement for an R-R “Rural Residential District”; as well as the image depicted the proposed future lot split.

§12-263: Area and Height Regulations
A. The following designates area and height:
   (2) Minimum lot frontage  110 feet

**EXISTING ZONING AND BUILDING USE REGULATIONS**

At the time this report was written, zoning for the subject site is A-G “General Agricultural District”. However, on March 17th 2020 the City Council will review the request to rezone to R-R “Rural Residential District”. The applicant is requesting the variance to minimum lot frontage from the R-R District, assuming City Council approves his request to rezone to the R-R District.

A single-family dwelling is a permitted use in the A-G “General Agricultural District”; however, the required minimum lot area is five (5) acres and minimum lot frontage is 330 feet. Mr. Maxwell’s property is 2.5 acres and his lot frontage along SE 29th Street is approximately 182 feet. He is requesting to rezone to R-R “Rural Residential District” in order to bring his property up to code and to move forward with the lot split application as described in Page 1.

There is currently a single-family residence with a detached garage, a shop and several storage buildings located on the site.

Any development of the property will require a submittal of a site development plan and appropriate permits. The development will have to comply with subdivision regulations, designated zoning classification, and all State of Oklahoma rules and regulations.

**COMPREHENSIVE PLAN**
- Future Development Density Plan: The subject property is within the “Rural Protection Boundary”. The development density of this area is 0.5 to 1 dwelling unit per acre. Mr. Maxwell’s request is to rezone is within the parameters set for the “Rural Protection Boundary” density.
• **Land Use:** The existing property is used as a single-family residence for the owner.
  o **Future Land Use:** The future land use designation for this property is Regional Business, which is described as: retail and professional office activities that aim to meet the needs of both local and regional residents. Development in this area should be unique and high-quality, creating a destination area to attract visitors to Choctaw. This land use category could also include a regional hospital or urgent care center.
  Mr. Maxwell’s request for R-R “Rural Residential District” is not consistent with what is shown on the Future Land Use Map; however, as seen in the surrounding land use and zoning section, there are properties zoned R-R “Rural Residential District” abutting his property and there are several properties not zoned residential, but are being used for residential purposes.
  o **Physical Constraints** – there are no natural or physical constraints on the property.

• **Transportation** – SE 29th Street is an arterial street with a 57.5 foot wide roadway and utility easement.

• **Infrastructure** – This area is currently not served by sanitary sewer; however there is public water available nearby. Please refer to paragraph below “Water and Sewer” to see more details regarding mandatory connections and extensions.

### WATER AND SEWER

The subject property is served by private water at this time. There is an existing twelve (12) inch water line in the SE 29th Street right-of-way. However, this area of the City is not serviced by public sewer.

City Code states the following regarding mandatory water/sewer connections and extensions:

• **§19-164.A Mandatory Connections** – The following properties must connect to Authority Water and Sanitary Sewer Main Lines:
  o New primary building development that abut existing public water and/or sanitary sewer mains;
  o Developed properties that abut existing water mains with failed water wells;
  o Developed properties that abut existing sewer main with a failed septic system;
  o In the event that a sanitary sewer extension or service is installed within twenty five (25) feet of a private water well, the well shall be abandoned and the property owner shall connect to the Authority’s water systems;
  o Lawn irrigation only is exempt from this rule. A backflow device must be installed and tested annually as required in the adopted International Plumbing Code.

• **§19-165.C Mandatory Extension** – The said property must extend the utility main if any point of the property is within five hundred (500) foot circumference of an existing public water or sanitary sewer main:
  o Platted or un-platted new primary building development;
  o Existing platted or un-platted developed properties that has a failed private water well(s) and or failed private sanitary sewer systems.

Connection to City Water will be required with any future development or large improvements on Mr. Maxwell’s property, based on the Code’s Mandatory Connection requirement.
The subject site is likely served by a private sanitary system, such as a septic system, as it is outside of the City’s current service boundary. There are no public sanitary sewer mains located within five hundred (500) feet for the property owner to extend or connect to as required by §19-165. Therefore, a private sanitary system is required and the installation/maintenance will have to adhere to the requirements of the City of Choctaw and Oklahoma Department of Environmental Quality (ODEQ).

**TRANSPORTATION**

The property has frontage along South SE 29th Street which is an arterial street. The Comprehensive Plan identifies arterials as roadways that are designed to convey longer trips and relatively heavy volumes of traffic; these roadways are primarily intended to provide mobility. These types of roadways may have four (4) to six (6) lanes of traffic requiring up to one hundred (100) feet of right-of-way. There currently is a 57.5 foot right-of-way easement along the north property line. Therefore, no additional easements will be required.

**POWERS TO GRANT VARIANCES**

The Board of Adjustment shall have the following powers as outlined in Article B, Sections 12-125 of the City of Choctaw Zoning Ordinance:

The Board of Adjustment shall have the power to authorize upon appeal in specific cases such variances from the terms of the zoning regulations in Section 12-201 et seq. of this code as will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the provisions of the zoning regulations, will in any individual case, result in unnecessary hardship, so that the spirit of the zoning regulations shall be observed, public safety and welfare secured, and substantial justice done. Such variances may be granted in such individual case of unnecessary hardship upon a finding by the board of adjustment that:

1. At the time of the original adoption of the regulations there are extraordinary and exceptional conditions pertaining to the particular piece of property in question because of its size, shape or topography, or other extraordinary or exceptional situations or condition of a specific piece of property.

2. The strict application of the zoning regulations to this particular and exceptional piece of property would create an unnecessary hardship, not self-imposed by the owner of developer.

3. Such conditions are peculiar only to the particular piece of property involved and not generally prevalent in the area.

4. Relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of the zoning regulations, provided however, that no variance may be granted for a use of land or building or structure that is prohibited by the zoning regulations set forth in §§ 12-201, “Title known as the Zoning Ordinance of the City of Choctaw, Oklahoma”, of this code.

The Board may grant an appeal, subject to such terms and conditions, provided the applicant has demonstrate to the satisfaction of the Board that the conditions governing the granting of a variance as set forth in the Zoning Regulations are satisfied and that the decisions of the Board would be in the interest of the community and would carry out the spirit and intent of the Zoning Regulations.
CITY OF CHOCTAW STAFF
The City of Choctaw’s staff has reviewed the variance request by Paul Maxwell. Staff has completed its review of the variance request of §12-263.
APPLICATION
Variance

Subject Address: 15870 S.E. 29th St. ChocTaw, OK 73026

Applicant: Paul R. & Susan M. Maxwell

LEGAL DESCRIPTION

I, Allen E. Henry, a Registered Land Surveyor of the State of Oklahoma, do hereby certify that the herein shown Legal Description was made under my supervision of a tract of being a part of the Northeast Quarter (NE/4) of Section 13, Township 11 North (T11N), Range 1 West (R1W) of the Indian Meridian, Oklahoma County, Oklahoma being more particularly described as follows:

TRACT A

A tract of land being a part of the Northeast Quarter (NE/4) of Section 13, Township 11 North (T11N), Range 1 West (R1W) of the Indian Meridian, Oklahoma County, Oklahoma being described as follows: Commencing from the Northeast Corner of the Northeast Quarter (NE/4) of Section 13; thence North 89°51'40" West a distance of 540.20 feet to the Point of Beginning; thence South 00°00'00" East a distance of 57.50 feet to a point; thence South 32°00'08" West a distance of 47.17 feet to a point; thence South 00°09'10" East a distance of 275.00 feet to a point; thence North 90°00'00" West a distance of 144.80 feet to a point; thence North 00°00'00" West a distance of 372.82 feet to a point; thence South 89°51'40" East a distance of 119.80 feet to the Point of Beginning, containing 1.19 acres more or less and subject to all Easements and Right-of-Way records.

TRACT B

A tract of land being a part of the Northeast Quarter (NE/4) of Section 13, Township 11 North (T11N), Range 1 West (R1W) of the Indian Meridian, Oklahoma County, Oklahoma being described as follows: Commencing from the Northeast Corner of the Northeast Quarter (NE/4) of Section 13; thence North 89°51'40" West a distance of 475.20 feet to the Point of Beginning; thence South 00°09'10" East a distance of 412.50 feet to a point; thence South 00°09'10" East a distance of 247.50 feet to a point; thence South 00°00'00" West a distance of 132.00 feet to a point; thence North 90°00'00" West a distance of 287.18 feet to a point; thence North 90°00'00" East a distance of 144.80 feet to a point; thence North 00°09'10" West a distance of 275.00 feet to a point; thence North 32°00'08" West a distance of 47.17 feet to a point; thence North 00°00'00" West a distance of 57.50 feet to a point; thence South 89°51'40" East a distance of 65.00 feet to the Point of Beginning, containing 1.31 acres more or less and subject to all Easements and Right-of-Way records.

AGENDA TITLE: A Variance Request Application for 610 S Anderson Road, submitted by Jim and Nancy Cox.

**Public hearing required if this box is checked**

General Report: Jim and Nancy Cox are the variance request applicants for this 5 acre A-G "General Agricultural District".

The applicant is requesting a variance to §12-258 Area and Height Regulations, specifically the minimum lot frontage width requirement of a minimum of 330 feet in order to adjust the property line with the southern parcel at 616 S Anderson Road. The current lot width is 165.23 feet and requested lot width are 180.46 feet.

The applicants will be seeking to rezone proposed Tract 1B to R-R "Rural Residential District; therefore a variance to Tract 1B is not requested.

Staff Comments: City Water & Sewer- there is an existing water main in the South Anderson Road right-of-way. Connection to City Water will be required with any future development or large improvements on the property. The residential property is served by a private septic system due to being out of the serviceable boundary for city sanitary sewer.

Comprehensive Plan: The subject site falls within the "Rural protection boundary" on the future density plan, which notes a development density of 0.5-1 dwelling unit per acre. This request is also consistent with the Future Land Use Plan which delineates this area as Low Density Residential, which is defined as single-family homes with lots that are typically one acre or larger excluding rights of way.
Applicant: Jim and Nancy Cox
Location: 610 S Anderson Road
Subject: Variance for § 12-258 Area and Height Regulation
Current Zoning: A-G “General Agricultural District”

Jim and Nancy Cox are the owners of this 5 acre tract of land located at 610 S Anderson Road. The property carries an A-G “General Agricultural District” zoning classification. The applicants are requesting a variance to the minimum lot frontage in order to adjust the property line with the southern parcel at 616 S Anderson Road, which is also owned by the applicants.

APPLICANT PROPOSAL

The applicants is requesting a variance to §12-258 Area and Height Regulations, specifically the minimum lot frontage width to allow for an application for a short form subdivision (lot split). The current lot width is 165.23 feet and requested lot width is 180.46 feet for proposed Tract 1A. The applicants will be seeking to rezone proposed Tract 1B to R-R “Rural Residential District; therefore a variance to Tract 1B is not requested. Below is the specific language listed in the City Code regarding the lot width requirement for the A-G “General Agricultural District”.

§12-258: Area and Height Regulations
A. The following designates area and height:
   (2) Minimum lot frontage  330 feet

The image below shows the proposed future lot split. The lot for which the frontage variance is requested is shaded in red. This lot will remain as an A-G “General Agricultural District” zoning designation. The applicants will be requesting an R-R “Rural Residential District” designation for the un-shaded lot (Tract 1B).
EXISTING ZONING AND BUILDING USE REGULATIONS

The current zoning for the property is A-G “General Agricultural District” which requires a minimum of five (5) acre lot size. The property is bound by R-R “Rural Residential District” on the north and east; A-G “General Agricultural District” on the south and Midwest City on the west.

As discussed on Page 1, the applicants’ intent is to adjust the property line with the southern parcel at 616 S Anderson Road. The applicants will be seeking to rezone proposed Tract 1B to R-R “Rural Residential District” and keeping the A-G “General Agricultural District” zoning for Tract 1A. Both lots currently have a single-family residences with accessory buildings on each lot. The property for which the variance is requested for has a mobile home. There is a shared access drive between the two properties and the applicants will either have to provide a driveway onto South Anderson Road from the southern property or provide an access easement for the shared access drive at the time of lot split.

Any development will require a submittal of a site development plan and appropriate permits. The development will have to comply with all subdivision and zoning regulations.

COMPREHENSIVE PLAN

- **Land Use**: The applicants are not requesting a change of zoning for the subject site with the variance application. They will be requesting a rezoning of the southern property at 616 S Anderson Road at the time of lot split.
  - **Future Land Use**: The existing zoning matches the City’s Future Land Use Map designation as “Low Density Residential” for the property.
  - **Physical Constraints** – There are no built or natural constraints present as listed in the Comprehensive plan, but if the property is developed, the developer will need to be aware of any stormwater drainage, stormwater quality, and all other environmental impacts.

- **Transportation** – The necessary right-of-way and easement dedications listed in the Comprehensive Plan will be reviewed with the lot split application. Please refer to the “Transportation” paragraph below to identify the required right of way dedication.

- **Infrastructure** – The property owner will have to meet all infrastructure requirements as discussed in the Comprehensive Plan and the City Code with any future development of this site. Please refer to paragraphs “Water and “Sewer” to see more details regarding mandatory connections and extensions.

WATER AND SEWER

The subject property is served by private water at this time. There is an existing water main in the South Anderson Road right-of-way. City Code states the following regarding mandatory water/sewer connections and extensions:

- **§19-164.A Mandatory Connections** – The following properties must connect to Authority Water and Sanitary Sewer Main Lines:
  - New primary building development that abut existing public water and/or sanitary sewer mains;
  - Developed properties that abut existing water mains with failed water wells;
  - Developed properties that abut existing sewer main with a failed septic system;
  - In the event that a sanitary sewer extension or service is installed within twenty five (25) feet of a private water well, the well shall be abandoned and the property owner shall connect to the Authority’s water systems;
Lawn irrigation only is exempt from this rule. A backflow device must be installed and tested annually as required in the adopted International Plumbing Code.

Connection to City Water will be required with any future development or large improvements on the property, based on the Code’s Mandatory Connection requirement.

The subject site is likely served by a private sanitary system, such as a septic system, as is it outside of the City’s current service boundary. There are no public sanitary sewer mains located within five hundred (500) feet for the property owner to extend or connect to as required by §19-165. Therefore, a private sanitary system is required and the installation/maintenance will have to adhere to the requirements of the City of Choctaw and Oklahoma Department of Environmental Quality (ODEQ).

**TRANSPORTATION**

The property has frontage along South Anderson Road, south of its intersection with East Reno Avenue. At the time of the subdivision of the lot, an additional seventeen (17) feet of public roadway and utility easement will be required along the western property lines to fulfill the minimum width for an arterial street; as indicated in the adopted Comprehensive Plan. The Comprehensive Plan identifies arterials as roadways that are designed to convey longer trips and relatively heavy volumes of traffic; these roadways are primarily intended to provide mobility. These types of roadways may have four (4) to six (6) lanes of traffic requiring up to one hundred (100) feet of right-of-way. The statutory right-of-way requirement for arterials is thirty-three (33) feet on one half of the roadway and therefore an additional seventeen (17) feet of public roadway and utility easement will be dedicated with this lot split along South Anderson Road to allow for proper width for utility relocation and proper road widening.

**POWERS TO GRANT VARIANCES**

The Board of Adjustment shall have the following powers as outlined in Article B, Sections 12-125 of the City of Choctaw Zoning Ordinance:

The Board of Adjustment shall have the power to authorize upon appeal in specific cases such variances from the terms of the zoning regulations in Section 12-201 et seq. of this code as will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the provisions of the zoning regulations, will in any individual case, result in unnecessary hardship, so that the spirit of the zoning regulations shall be observed, public safety and welfare secured, and substantial justice done. **Such variances may be granted in such individual case of unnecessary hardship upon a finding by the board of adjustment that:**

1. **At the time of the original adoption of the regulations there are extraordinary and exceptional conditions pertaining to the particular piece of property in question because of its size, shape or topography, or other extraordinary or exceptional situations or condition of a specific piece of property.**

2. **The strict application of the zoning regulations to this particular and exceptional piece of property would create an unnecessary hardship, not self-imposed by the owner of developer.**

3. **Such conditions are peculiar only to the particular piece of property involved and not generally prevalent in the area.**
(4) Relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of the zoning regulations, provided however, that no variance may be granted for a use of land or building or structure that is prohibited by the zoning regulations set forth in §§ 12-201, “Title known as the Zoning Ordinance of the City of Choctaw, Oklahoma”, of this code.

The Board may grant an appeal, subject to such terms and conditions, provided the applicant has demonstrate to the satisfaction of the Board that the conditions governing the granting of a variance as set forth in the Zoning Regulations are satisfied and that the decisions of the Board would be in the interest of the community and would carry out the spirit and intent of the Zoning Regulations.

CITY OF CHOCTAW STAFF
The City of Choctaw’s staff has reviewed the variance request by Jim and Nancy Cox. Staff has completed its review of the variance request of §12-258.

AGENDA TITLE: A Variance Request Application for 16535 SE 29th Street, submitted by Tyler Hand.

**Public hearing required if this box is checked**

General Report: Tyler Hand is the variance request applicant for this 24.11 acre R-R "Rural Residential District" tract of land.

The applicant is requesting a variance to §12-263 Area and Height Regulations, specifically the minimum rear yard setback requirement of 20% depth of the lot in order to construct a new residence.

Mr. Hand’s property is approximately one thousand six hundred and fifty (1,650) feet deep, which would require a rear yard setback of three hundred and thirty (330) feet. He is requesting a rear yard setback of one hundred and fifty (150) feet.

Staff Comments: City Water & Sewer- The subject property will be served by a private well and sanitary septic system as it is outside of the City’s current serviceable boundary. Installation of a well and septic system will require all appropriate permits and must meet installation standards as required by the City of Choctaw, Oklahoma Water Resource Board (OWRB), and Oklahoma Department of Environmental Quality (ODEQ).

Comprehensive Plan: Future Land Use Map designation as "Low Density Residential" for the majority of the property (the back 20 acres). However, the front six hundred and ten (610) feet of the property (4 acres) is designated as Regional Business.

There are physical constraints on the property. The front portion of the property is in the floodplain. Additionally, there are some steep grades in this portion of the site too – a difference in grade of approximately 28 feet.
CITY OF CHOCTAW
Staff Report

Applicant: Tyler Hand
Location: 16535 SE 29th Street
Subject: Variance for § 12-263 Area and Height Regulation
Current Zoning: R-R “Rural Residential District”

Tyler Hand is the owner of this 24.11 acre tract of land located at 16535 SE 29th Street. The property carries an R-R “Rural Residential District” zoning classification. The applicant is requesting a variance to the minimum rear yard setback in order to construct a new single-family residence on the subject site.

APPLICANT PROPOSAL
The applicant is requesting a variance to §12-263 Area and Height Regulations, specifically the minimum rear yard setback to construct a new single-family residence on the lot. The applicant has noted the location for the home was chosen based on the size, shape and topography of the property. Additionally, the front portion of his property along SE 29th Street is in the floodplain.

Mr. Hand’s property is approximately one thousand six hundred and fifty (1,650) feet deep, which would require a rear yard setback of three hundred and thirty (330) feet. **He is requesting a rear yard setback of one hundred and fifty (150) feet.** Below is the specific language as listed in the City Code regarding the rear yard setback requirement:

§12-263: Area and Height Regulations
A. The following designates area and height:
   (6) Minimum rear yard setback 20% Depth of Lot

The image of the property with the floodplain and contours is attached on the next page.

EXISTING ZONING AND BUILDING USE REGULATIONS
The current zoning for the property is R-R “Rural Residential District” which requires a minimum of one (1) acre lot size. The property is bound by R-R “Rural Residential District” on the north, east and west. The properties to the south are zoned A-G “General Agricultural District”.

The applicant has a building permit under review currently for the new home. Staff is awaiting the decision of the Board of Adjustment of the requested rear yard setback prior to issuing any permits to the applicant.

All construction and development will have to comply with all subdivision, zoning regulations and city code requirements.
COMPREHENSIVE PLAN

- **Land Use**: The applicant is not requesting a change of zoning for the subject site with the variance application.
  
  - *Future Land Use*: The existing zoning matches the City’s Future Land Use Map designation as “Low Density Residential” for the majority of the property (the back 20 acres). However, the front six hundred and ten (610) feet of the property (4 acres) is designated as Regional Business, which is described as: retail and professional office activities that aim to meet the needs of both local and regional residents.
  
  - *Physical Constraints* – As seen in the image above, the front portion of Mr. Hand’s property is in the floodplain. Additionally, there are some steep grades in this portion of the site too – a difference in grade of approximately 28 feet.

- **Transportation** – Please refer to the “Transportation” paragraph below to identify the required right of way dedication.

- **Infrastructure** – The property owner will have to meet all infrastructure requirements as discussed in the Comprehensive Plan and the City Code with any future development of this site. Please refer to paragraphs “Water and “Sewer” to see more details regarding mandatory connections and extensions.
WATER AND SEWER
The subject property will be served by a private well and sanitary septic system as it is outside of the City’s current serviceable boundary. The City Code does require mandatory connections and extensions of water and sewer if the property is within five hundred (500) feet of an existing City water or sewer main. Additionally, extensions are required if any portion of a subdivision, multi-family development, non-residential development, or illegal lot split is within one thousand two hundred (1,200) feet of an existing water main. The closest water main is over one thousand three hundred (1,300) feet away from this property.

Installation of a well and septic system will require all appropriate permits and must meet installation standards as required by the City of Choctaw, Oklahoma Water Resource Board (OWRB), and Oklahoma Department of Environmental Quality (ODEQ).

TRANSPORTATION
The property has frontage along SE 29th Street, east of its intersection with Triple X Road. At the time of the building permit, an additional seventeen (17) feet of public roadway and utility easement will be required along the southern property line to fulfill the minimum width for an arterial street; as indicated in the adopted Comprehensive Plan. The Comprehensive Plan identifies arterials as roadways that are designed to convey longer trips and relatively heavy volumes of traffic; these roadways are primarily intended to provide mobility. These types of roadways may have four (4) to six (6) lanes of traffic requiring up to one hundred (100) feet of right-of-way. The statutory right-of-way requirement for arterials is thirty-three (33) feet on one half of the roadway and therefore an additional seventeen (17) feet of public roadway and utility easement will be dedicated along SE 29th Street to allow for proper width for utility relocation and proper road widening.

POWERS TO GRANT VARIANCES
The Board of Adjustment shall have the following powers as outlined in Article B, Sections 12-125 of the City of Choctaw Zoning Ordinance:

The Board of Adjustment shall have the power to authorize upon appeal in specific cases such variances from the terms of the zoning regulations in Section 12-201 et seq. of this code as will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the provisions of the zoning regulations, will in any individual case, result in unnecessary hardship, so that the spirit of the zoning regulations shall be observed, public safety and welfare secured, and substantial Justice done. Such variances may be granted in such individual case of unnecessary hardship upon a finding by the board of adjustment that:

1. At the time of the original adoption of the regulations there are extraordinary and exceptional conditions pertaining to the particular piece of property in question because of its size, shape or topography, or other extraordinary or exceptional situations or condition of a specific piece of property.

2. The strict application of the zoning regulations to this particular and exceptional piece of property would create an unnecessary hardship, not self-imposed by the owner of developer.

3. Such conditions are peculiar only to the particular piece of property involved and not generally prevalent in the area.
(4) Relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of the zoning regulations, provided however, that no variance may be granted for a use of land or building or structure that is prohibited by the zoning regulations set forth in §§ 12-201, “Title known as the Zoning Ordinance of the City of Choctaw, Oklahoma”, of this code.

The Board may grant an appeal, subject to such terms and conditions, provided the applicant has demonstrate to the satisfaction of the Board that the conditions governing the granting of a variance as set forth in the Zoning Regulations are satisfied and that the decisions of the Board would be in the interest of the community and would carry out the spirit and intent of the Zoning Regulations.

CITY OF ChoCTAW STAFF
The City of Choctaw’s staff has reviewed the variance request by Tyler Hand. Staff has completed its review of the variance request of §12-263.

Address: 16324 SE 26th
City: Choctaw
State: OK
Zip: 73020

Property Zoning: RR
Code Section No.: 

Reason for Variance?: Change of setback to 150 feet because of size, shape and topography.

The undersigned declares that the above statements and those contained in any exhibits transmitted to the Board of Adjustment are true and correct to the best of my knowledge and that I received the Policies and Procedures regulating the Variance application.

PROPERTY OWNER’S SIGNATURE: [Signature]

[Not necessary if there is an authorized representative. Authorized representative must sign below]

AUTHORIZED REPRESENTATIVE: I hereby certify that I am authorized to represent all of the property owners of the above described tract in the application. A power of attorney is attached.

Name: 
Address: 

Signature: 
Telephone: 

County Parcel Number: 

June 2016
I am requesting a variance for the rear property line setback, to enable me to build new home. The placement of the home is due to the size, shape and topography of the property. We are unable to meet the zoning standard of 20% of depth due to the hydrology closer to the front of the property.

Tyler Hand
JOINT TENANCY
WARRANTY DEED

Know All Men by These Presents:

THAT, Laura Kathryn Harris, a single person, of the first part, in consideration of the sum of TEN and No/100 ($10.00) and other valuable considerations in hand paid, the receipt of which is hereby acknowledged, does hereby Grant, Bargain, Sell and convey unto Tyler L. Hand and Kristie S. Hand, husband and wife as joint tenants and not as tenants in common, with full rights of survivorship, the whole estate to vest in the survivor in the event of the death of either, parties of the second part, the following described real property and premises situate in Oklahoma County, State of Oklahoma, to wit:

SEE ATTACHED EXHIBIT "A" FOR LEGAL DESCRIPTION

AGENDA TITLE: A Variance Request Application for a property located along NE 10th Street, submitted by Thomas Miller.

**Public hearing required if this box is checked**

General Report: Thomas Miller is the variance request applicant for this 11.8 acre R-R “Rural Residential District” tract of land.

The applicant is requesting a variance to §12-263 Area and Height Regulations, specifically the minimum rear yard setback requirement of 20% depth of the lot in order to construct a new residence.

Mr. Miller's property is approximately one thousand seven hundred and eighty (1,780) feet deep, which would require a rear yard setback of three hundred and fifty six (356) feet. He is requesting a rear yard setback of two hundred (200) feet.

Staff Comments: City Water & Sewer- The applicant will be required to extend the twelve (12) inch water line across the frontage of his lot. There is a twelve (12) inch water main along NE 10th Street which terminates at the western property line. The subject site will have to be served by a private sanitary system, such as a septic system, as it is outside of the City's current service boundary. The applicant will be responsible for obtaining all appropriate permits and must meet installation standards.

Comprehensive Plan: The existing zoning matches the City's Future Land Use Map designation as “Low Density Residential” for the property.

The applicant wishes to build his home on the southern portion of his lot, where the width of the property is wider; however, this area of the property has a ravine. If the applicant were to adhere to the rear yard setback, the front portion of his lot would be in the ravine.
Applicant: Thomas Miller

Location: NE 10th Street

Subject: Variance for § 12-263 Area and Height Regulation

Current Zoning: R-R “Rural Residential District”

Thomas Miller is the owner of this 11.8 acre tract of land located at off of NE 10th Street, two thousand five hundred (2,500) feet east of its intersection with North Indian Meridian Road. The property carries an R-R “Rural Residential District” zoning classification. The applicant is requesting a variance to the minimum rear yard setback in order to construct a new single-family residence on the subject site.

**APPLICANT PROPOSAL**

The applicant is requesting a variance to §12-263 Area and Height Regulations, specifically the minimum rear yard setback to construct a new single-family residence on the lot. The applicant has noted the location for the home was chosen based on the topography of the property.

Mr. Miller’s property is approximately one thousand seven hundred and eighty (1,780) feet deep, which would require a rear yard setback of three hundred and fifty six (356) feet. **He is requesting a rear yard setback of two hundred (200) feet.** The applicant wishes to build his home on the southern portion of his lot, where the width of the property is wider; however, this area of the property has a ravine. If the applicant were to adhere to the rear yard setback, the front portion of his lot would be in the ravine. Below is the specific language as listed in the City Code regarding the rear yard setback requirement:

§12-263: Area and Height Regulations
A. The following designates area and height:
   (6) Minimum rear yard setback 20% Depth of Lot

The image of the property with the contours is attached on the next page.

**EXISTING ZONING AND BUILDING USE REGULATIONS**

The current zoning for the property is R-R “Rural Residential District” which requires a minimum of one (1) acre lot size. The property is bound by R-R “Rural Residential District” on the north, south and east. The properties to the west are zoned R-S “Single Family Residential District” and are part of the Silver Chase residential subdivision.

The applicant has a building permit under review currently for the new home. Staff is awaiting the decision of the Board of Adjustment of the requested rear yard setback prior to issuing any permits to the applicant.
All construction and development will have to comply with all subdivision, zoning regulations and city code requirements.

**COMPREHENSIVE PLAN**

- **Land Use**: The applicant is not requesting a change of zoning for the subject site with the variance application.
  - *Future Land Use*: The existing zoning matches the City’s Future Land Use Map designation as “Low Density Residential” for the property.
  - *Physical Constraints* – As discussed above the applicant wishes to build his home on the southern portion of his lot, where the width of the property is wider; however, this area of the property has a ravine.
- **Transportation** – Please refer to the “Transportation” paragraph below to identify the required right of way dedication.
- **Infrastructure** – The property owner will have to meet all infrastructure requirements as discussed in the Comprehensive Plan and the City Code with any future development of this site. Please refer to paragraphs “Water” and “Sewer” to see more details regarding mandatory connections and extensions.
**WATER AND SEWER**

The City Code does require mandatory connections and extensions of water and sewer if the property is within five hundred (500) feet of an existing City water or sewer main. There is a twelve (12) inch water main along NE 10\textsuperscript{th} Street which terminates at the western property line. The applicant will be required to extend this main across the width of his lot along NE 10\textsuperscript{th} Street and will be required to connect to this water line extension. The applicant will be responsible for obtaining all appropriate permits and must meet installation standards as required by the City of Choctaw, Oklahoma Water Resource Board (OWRB), and Oklahoma Department of Environmental Quality (ODEQ).

The subject site will have to be served by a private sanitary system, such as a septic system, as it is outside of the City’s current service boundary. There are no public sanitary sewer mains located within five hundred (500) feet for the property owner to extend or connect to as required by §19-165. Therefore, a private sanitary system is required and the installation/maintenance will have to adhere to the requirements of the City of Choctaw and Oklahoma Department of Environmental Quality (ODEQ).

**TRANSPORTATION**

The property has frontage along NE 10\textsuperscript{th} Street, east of its intersection with North Indian Meridian Road. At the time of the building permit, an additional seventeen (17) feet of public roadway and utility easement will be required along the northern property line to fulfill the minimum width for an arterial street; as indicated in the adopted Comprehensive Plan. The Comprehensive Plan identifies arterials as roadways that are designed to convey longer trips and relatively heavy volumes of traffic; these roadways are primarily intended to provide mobility. These types of roadways may have four (4) to six (6) lanes of traffic requiring up to one hundred (100) feet of right-of-way. The statutory right-of-way requirement for arterials is thirty-three (33) feet on one half of the roadway and therefore an additional seventeen (17) feet of public roadway and utility easement will be dedicated along NE 10\textsuperscript{th} Street to allow for proper width for utility relocation and proper road widening.

**POWERS TO GRANT VARIANCES**

The Board of Adjustment shall have the following powers as outlined in Article B, Sections 12-125 of the City of Choctaw Zoning Ordinance:

The Board of Adjustment shall have the power to authorize upon appeal in specific cases such variances from the terms of the zoning regulations in Section 12-201 et seq. of this code as will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the provisions of the zoning regulations, will in any individual case, result in unnecessary hardship, so that the spirit of the zoning regulations shall be observed, public safety and welfare secured, and substantial justice done. **Such variances may be granted in such individual case of unnecessary hardship upon a finding by the board of adjustment that:**

1. **At the time of the original adoption of the regulations there are extraordinary and exceptional conditions pertaining to the particular piece of property in question because of its size, shape or topography, or other extraordinary or exceptional situations or condition of a specific piece of property.**

2. **The strict application of the zoning regulations to this particular and exceptional piece of property would create an unnecessary hardship, not self-imposed by the owner of developer.**
(3) Such conditions are peculiar only to the particular piece of property involved and not generally prevalent in the area.

(4) Relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of the zoning regulations, provided however, that no variance may be granted for a use of land or building or structure that is prohibited by the zoning regulations set forth in §§ 12-201, “Title known as the Zoning Ordinance of the City of Choctaw, Oklahoma”, of this code.

The Board may grant an appeal, subject to such terms and conditions, provided the applicant has demonstrate to the satisfaction of the Board that the conditions governing the granting of a variance as set forth in the Zoning Regulations are satisfied and that the decisions of the Board would be in the interest of the community and would carry out the spirit and intent of the Zoning Regulations.

**CITY OF CHOCTAW STAFF**

The City of Choctaw’s staff has reviewed the variance request by Thomas Miller. Staff has completed its review of the variance request of §12-263.

Certificate of Survey

December 31, 2019

I, Chris Fairchild, a Registered Professional Land Surveyor, do hereby certify, as of the date set forth above, that I or others under my direct supervision, have made a careful survey of a tract of land described as follows:

A part of the Northeast Quarter (NE 1/4) of Section Thirty-one (31), Township 12 North, Range 1 East of the Indian Meridian, Oklahoma County, Oklahoma, more particularly described as follows:

BEGINNING at the Northwest corner of said NE 1/4;

THENCE East along the North line of said Section a distance of 480.67 feet;

THENCE South 10°43'55" West a distance of 651.00 feet;

THENCE West and parallel to the North line of said Section a distance of 172.60 feet;

THENCE South and parallel to the West line of said NE 1/4 a distance of 610.40 feet;

THENCE East and parallel to the North line of said Section a distance of 349.82 feet;

THENCE South and parallel to the West line of NE 1/4 a distance of 531.80 feet;

THENCE West and parallel to the North line of said Section a distance of 513.67 feet;

THENCE North along the West line of NE 1/4 a distance of 1780.45 feet (1781.81 feet Record) to the POINT OF BEGINNING.

LESS AND EXCEPT

A part of the Northeast Quarter (NE 1/4) of Section Thirty-one (31), Township 12 North, Range 1 East of the Indian Meridian, Oklahoma County, Oklahoma, more particularly described as;

COMMENCING at the Northwest corner of said NE 1/4;

THENCE North 89°22'15" East along the North line of said NE 1/4 a distance of 218.67 feet to the POINT OF BEGINNING;

THENCE continuing North 89°22'15" East a distance of 242.00 feet;

THENCE South 10°43'55" West a distance of 651.00 feet;

THENCE South 89°22'15" West a distance of 120.77 feet;

THENCE North 00°00'00" East and parallel with the West line of said NE 1/4 a distance of 636.28 feet to the POINT OF BEGINNING, subject to a 33 foot road easement along the North side.

Said tract of land contains an area of 630,289 square feet or 14.4694 acres, more or less.

I further certify that this survey meets the Oklahoma Minimum Standards for the Practice of Land Surveying as adopted by the Oklahoma State Board of Registration for Professional Engineers and Land Surveyors.

Notes:

1. The bearing of North 89°22'15" East as shown for the North line of the Northeast Quarter of Section 31 was used as the basis of bearing for this survey.

2. A title commitment, indicating applicable easements, was not provided to us at the date of the survey; therefore all easements and encumbrances may not be shown.
This Report is for Account Number R192552030 and is a 300-foot radius from the outside of the polygon. If the minimum number of different owners was not reached it was extended by 100-foot increments until the required number of different owners was reached, or the maximum distance was reached. This report does not constitute a legal survey or document, for definitive description of real property and ownership; consult the deeds recorded in the Oklahoma County Clerks Office.

AGENDA TITLE: A Variance Request Application for 4963 North Choctaw Road, submitted by Bradley Craig.

GENERAL REPORT:

Bradley Craig is the variance request applicant for this 2.94 acre R-R “Rural Residential District” tract of land.

The applicant is requesting a variance to §12-263 Area and Height Regulations, specifically the minimum rear yard setback requirement of 20% depth of the lot in order to construct a new residence.

The property is approximately three hundred and thirty (330) feet deep, which would require a rear yard setback of sixty six (66) feet. He is requesting a rear yard setback of fifty (50) feet.

STAFF COMMENTS:

City Water & Sewer- The subject property will be served by a private well and sanitary septic system as it is outside of the City’s current serviceable boundary. Installation of a well and septic system will require all appropriate permits and must meet installation standards as required by the City of Choctaw, Oklahoma Water Resource Board (OWRB), and Oklahoma Department of Environmental Quality (ODEQ).

Comprehensive Plan: The Future Land Use Plan delineates this property as Local Business, which is described as: light retail, service uses, and professional office activities that aim to meet the needs of residents in the immediate vicinity.

There are physical constraints on the property, approximately half of Mr. Craig’s property is in floodplain. He request for variance to the rear yard setback is to keep the home outside of the designated floodplain areas.
Bradley Craig is the applicant of this 2.94 acre tract of land located at 4963 N Choctaw Road. The property carries an R-R “Rural Residential District” zoning classification. The applicant is requesting a variance to the minimum rear yard setback in order to construct a new single-family residence on the subject site.

**APPLICANT PROPOSAL**

The applicant is requesting a variance to §12-263 Area and Height Regulations, specifically the minimum rear yard setback to construct a new single-family residence on the lot. The applicant has noted the location for the home was chosen based on the floodplain that covers parts of the property.

The property is approximately three hundred and thirty (330) feet deep, which would require a rear yard setback of sixty six (66) feet. **He is requesting a rear yard setback of fifty (50) feet.** Below is the specific language as listed in the City Code regarding the rear yard setback requirement:

§12-263: Area and Height Regulations

A. The following designates area and height:

(6) Minimum rear yard setback 20% Depth of Lot

The image of the property with the floodplain and contours is attached on the next page.

**EXISTING ZONING AND BUILDING USE REGULATIONS**

The current zoning for the property is R-R “Rural Residential District” which requires a minimum of one (1) acre lot size. The property is bound by R-R “Rural Residential District” on the north and south. The property to the west is zoned A-G “General Agricultural District” and the property to the east is zoned C-G “General Commercial District”.

The applicant has a building permit and floodplain permit under review currently for the new home. Staff is awaiting the decision of the Board of Adjustment of the requested rear yard setback prior to issuing any permits to the applicant.

All construction and development will have to comply with all subdivision, zoning regulations and city code requirements.
COMPREHENSIVE PLAN

- **Land Use:** The applicant is not requesting a change of zoning for the subject site with the variance application.
  - **Future Land Use:** The Future Land Use Plan delineates this property as Local Business, which is described as: light retail, service uses, and professional office activities that aim to meet the needs of residents in the immediate vicinity. This land designation includes boutique retail shops, small sized restaurants and services such as financial, legal, and insurance.
  - **Physical Constraints** – As seen in the image above, approximately half the subject property is in floodplain. He request for variance to the rear yard setback is to keep the home outside of the designated floodplain areas.

- **Transportation** – Please refer to the “Transportation” paragraph below to identify the required right of way dedication.

- **Infrastructure** – The property owner will have to meet all infrastructure requirements as discussed in the Comprehensive Plan and the City Code with any future development of this site. Please refer to paragraphs “Water and “Sewer” to see more details regarding mandatory connections and extensions.

WATER AND SEWER

The subject property will be served by a private well and sanitary septic system as it is outside of the City’s current serviceable boundary. The City Code does require mandatory connections and extensions of water and sewer if the property is within five hundred (500) feet of an existing City water or sewer main. Additionally, extensions are required if any portion of a subdivision, multi-family development, non-
residential development, or illegal lot split is within one thousand two hundred (1,200) feet of an existing water main. This property is outside the five hundred (500) foot radius from the closest water main and over one thousand three hundred (1,300) feet away from the closest sewer line; therefore, connections and extensions will not be required.

Future installation and/or connection to a public water and sewer service or changes to the existing well and septic system will require all appropriate permits and installation as required by the City of Choctaw, Oklahoma Water Resource Board (OWRB), and Oklahoma Department of Environmental Quality (ODEQ).

**TRANSPORTATION**
The property has frontage along North Choctaw Road, south of its intersection with NE 50th Street. At the time of the building permit, an additional seventeen (17) feet of public roadway and utility easement will be required along the southern property line to fulfill the minimum width for an arterial street; as indicated in the adopted Comprehensive Plan. The Comprehensive Plan identifies arterials as roadways that are designed to convey longer trips and relatively heavy volumes of traffic; these roadways are primarily intended to provide mobility. These types of roadways may have four (4) to six (6) lanes of traffic requiring up to one hundred (100) feet of right-of-way. The statutory right-of-way requirement for arterials is thirty-three (33) feet on one half of the roadway and therefore an additional seventeen (17) feet of public roadway and utility easement will be dedicated along North Choctaw Road to allow for proper width for utility relocation and proper road widening.

**POWERS TO GRANT VARIANCES**
The Board of Adjustment shall have the following powers as outlined in Article B, Sections 12-125 of the City of Choctaw Zoning Ordinance:

The Board of Adjustment shall have the power to authorize upon appeal in specific cases such variances from the terms of the zoning regulations in Section 12-201 et seq. of this code as will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the provisions of the zoning regulations, will in any individual case, result in unnecessary hardship, so that the spirit of the zoning regulations shall be observed, public safety and welfare secured, and substantial justice done. **Such variances may be granted in such individual case of unnecessary hardship upon a finding by the board of adjustment that:**

1. **At the time of the original adoption of the regulations there are extraordinary and exceptional conditions pertaining to the particular piece of property in question because of its size, shape or topography, or other extraordinary or exceptional situations or condition of a specific piece of property.**

2. **The strict application of the zoning regulations to this particular and exceptional piece of property would create an unnecessary hardship, not self-imposed by the owner of developer.**

3. **Such conditions are peculiar only to the particular piece of property involved and not generally prevalent in the area.**

4. **Relief, if granted, would not cause substantial detriment to the public good or impair the purposes and intent of the zoning regulations, provided however, that no variance may be granted for a use of land or building or structure that is prohibited by the zoning regulations set forth in §§ 12-201, “Title known as the Zoning Ordinance of the City of Choctaw, Oklahoma”, of this code.**
The Board may grant an appeal, subject to such terms and conditions, provided the applicant has
demonstrate to the satisfaction of the Board that the conditions governing the granting of a variance as
set forth in the Zoning Regulations are satisfied and that the decisions of the Board would be in the interest
of the community and would carry out the spirit and intent of the Zoning Regulations.

**CITY OF CHOCTAW STAFF**
The City of Choctaw’s staff has reviewed the variance request by Bradley Craig. Staff has completed its
review of the variance request of §12-263.
APPLICATION
Variance

Subject Address: 4963 N. CHOCTAW RD.

Applicant: Bradley K. Craig
Address: 4158 S. Henney Rd.
Phone: (405) 408-8162
City: Choctaw
State: OK
Zip: 73020

E-mail address: bradcreigplumbing@yahoo.com

Property Owner: Collin Spriggs
Address: 4963 N Choctaw Rd.
Phone: (405) 911-4070
City: Choctaw
State: OK
Zip: 73020

Property Zoning: Code Section No.: 

Reason for Variance: To stay further out of flood plain.

The undersigned declares that the above statements and those contained in any exhibits transmitted to the Board of Adjustment are true and correct to the best of my knowledge and that I received the Policies and Procedures regulating the Variance application.

PROPERTY OWNER’S SIGNATURE:
[Not necessary if there is an authorized representative. Authorized representative must sign below]

AUTHORIZED REPRESENTATIVE: I hereby certify that I am authorized to represent all of the property owners of the above described tract in the application. A power of attorney is attached.

Name: Bradley K. Craig
Address: 4158 S. Henney Rd.
Signature: 
Telephone: (405) 408-8162

County Parcel Number:
I am requesting a rear setback variance to obtain a building permit. This residence will require setting closer to the rear property line due to the flood area.

Bradley Craig
LEGAL DESCRIPTION

I, Allen E. Henry, a Registered Land Surveyor of the State of Oklahoma, do hereby certify that the herein shown Survey was made on the ground under my supervision of a tract of land being a part of the South Half (S/2) of the East Half (E/2) of the East Half (E/2) of the Northeast Quarter (NE/4) of the Northeast Quarter (NE/4) of Section 14, Township 12 North (T12N), Range 1 West (R1W) of the Indian Meridian, Oklahoma County, Oklahoma being more particularly described as follows:

Commencing at the Northeast Corner of Section 14; thence South 00°00'00" West along the East line of said Section 14 a distance of 819.64 feet at the Point of Beginning; thence continuing South 00°00'00" West a distance of 192.64 feet; thence South 89°52'21" West a distance of 133.00 feet; thence South 00°00'00" West a distance of 327.00 feet; thence South 89°52'21" West a distance of 197.98 feet; thence North 00°03'36" East a distance of 519.10 feet; thence North 89°46'41" East a distance of 330.44 feet to the Point of Beginning, containing 2.94 acres more or less and subject to all Easements and Right-of-Way records.

SECTION C – BUILDING ELEVATION INFORMATION (SURVEY REQUIRED)

C1. Building elevations are based on:

☐ Construction Drawings*  ☑ Building Under Construction*  ☐ Finished Construction

* A new Elevation Certificate will be required when construction of the building is complete.

Complete items C2.a–h below according to the building diagram specified in item A7. In Puerto Rico only, enter meters.

Benchmark Utilized: LOMA / 40019C0220H
Vertical Datum: NAVD 88 / FEMA 286

Indicate elevation datum used for the elevations in items a) through h) below.

☐ NGVD 1929  ☑ NAVD 1988  ☐ Other/Source:

Datum used for building elevations must be the same as that used for the BFE.

a) Top of bottom floor (including basement, crawlspace, or enclosure floor)  1138.50
   Check the measurement used.
   ☑ feet  ☐ meters

b) Top of the next higher floor
   N/A
   ☐ feet  ☑ meters

c) Bottom of the lowest horizontal structural member (V Zones only)
   N/A
   ☐ feet  ☑ meters

d) Attached garage (top of slab)
   N/A
   ☐ feet  ☑ meters

e) Lowest elevation of machinery or equipment servicing the building
   (Describe type of equipment and location in Comments)
   N/A
   ☐ feet  ☑ meters

f) Lowest adjacent (finished) grade next to building (LAG)
   1138.19
   ☑ feet  ☐ meters

g) Highest adjacent (finished) grade next to building (HAG)
   1138.71
   ☑ feet  ☐ meters

h) Lowest adjacent grade at lowest elevation of deck or stairs, including structural support
   N/A
   ☐ feet  ☑ meters

SECTION D – SURVEYOR, ENGINEER, OR ARCHITECT CERTIFICATION

This certification is to be signed and sealed by a land surveyor, engineer, or architect authorized by law to certify elevation information.
I certify that the information on this Certificate represents my best efforts to interpret the data available. I understand that any false
statement may be punishable by fine or imprisonment under 18 U.S. Code, Section 1001.

Were latitude and longitude in Section A provided by a licensed land surveyor?

SECTION E – BUILDING ELEVATION INFORMATION (SURVEY NOT REQUIRED)

FOR ZONE AO AND ZONE A (WITHOUT BFE)

For Zones AO and A (without BFE), complete Items E1–E5. If the Certificate is intended to support a LOMA or LOMR-F request, complete Sections A, B, and C. For Items E1–E4, use natural grade, if available. Check the measurement used. In Puerto Rico only, enter meters.

E1. Provide elevation information for the following and check the appropriate boxes to show whether the elevation is above or below the highest adjacent grade (HAG) and the lowest adjacent grade (LAG).
   a) Top of bottom floor (including basement, crawlspace, or enclosure) is
      [ ] feet [ ] meters
      [ ] above or [ ] below the HAG.
      [ ] above or [ ] below the LAG.
      N/A
   b) Top of bottom floor (including basement, crawlspace, or enclosure) is
      [ ] feet [ ] meters
      [ ] above or [ ] below the HAG.
      [ ] above or [ ] below the LAG.
      N/A

E2. For Building Diagrams 6–9 with permanent flood openings provided in Section A Items 8 and/or 9 (see pages 1–2 of Instructions), the next higher floor (elevation C2.1 in the diagrams) of the building is
   [ ] feet [ ] meters
   [ ] above or [ ] below the HAG.
   N/A

E3. Attached garage (top of slab) is
   [ ] feet [ ] meters
   [ ] above or [ ] below the HAG.
   N/A

E4. Top of platform of machinery and/or equipment servicing the building is
   [ ] feet [ ] meters
   [ ] above or [ ] below the HAG.
   N/A

E5. Zone AO only: If no flood depth number is available, is the top of the bottom floor elevated in accordance with the community’s floodplain management ordinance? [ ] Yes [ ] No [ ] Unknown. The local official must certify this information in Section G.

SECTION F – PROPERTY OWNER (OR OWNER’S REPRESENTATIVE) CERTIFICATION

The property owner or owner’s authorized representative who completes Sections A, B, and E for Zone A (without a FEMA-issued or community-issued BFE) or Zone AO must sign here. The statements in Sections A, B, and E are correct to the best of my knowledge.

Engineering and Construction Division
Hydraulics and Hydrology Branch – 12th Floor
Floodplain Management Services: (12-30)

Stout & Henry Surveying, Inc.
Att: Mr. Allen Henry
5001 Berryman Road
Oklahoma City, OK 73150

RE: 35.521029°N, -97.266667° W: Spriggs Property
NE ¼, NE ¼, Sec. 14 T12N R01W Indian Meridian
Oklahoma County, Oklahoma

Dear Mr. Henry,

This is in response to your request to develop a Base Flood Elevation (BFE) for property located in the Northeast Quarter of the Northeast Quarter of Section 14 Township-12-North Range-01-West of the Indian Meridian, in Oklahoma County, Oklahoma.

The current Federal Emergency Management Agency's Flood Insurance Rate Map (community-panel 40019C0220H, dated December 18, 2009) indicates the property is in Zone A (the 100-year floodplain of an unnamed tributary of the North Canadian River).

Based on data obtained in Letter of Map Amendment (LOMA) 11-06-0791A dated January 25, 2011, we have determined that the base flood elevation for this property to be 1137.9 feet NAVD 88 (North American Vertical Datum). This base flood elevation was determined using acceptable guidelines, outlined in FEMA 265, but should not be considered a detailed hydraulic analysis. To officially remove structures from flood insurance requirements, a Letter of Map Change (LOMC) can be obtained from FEMA. Any development on this property must be constructed to local floodplain regulations.

Our fee for this flood hazard evaluation, determined in accordance with ER 1105-2-100 guidelines, is $150.00. This letter is also an invoice for the hazard evaluation. Payment is due upon receipt. Please send a money order or check payable to USAED Tulsa, to the above address, ATTN: EC-HF-FPMS. To assure proper crediting for your evaluation, please include a copy of this letter when submitting your fee. If you have any questions, please call Floodplain Management Services at 918-669-4920.

Sincerely,

Neal Harton, P.E., CFM

APPLICATION GUIDELINES
FLOOD PERMIT

TO COMPLY WITH FLOODPLAIN MANAGEMENT REGULATIONS AND TO MINIMIZE POTENTIAL FLOOD DAMAGE, IF YOU ARE BUILDING WITHIN AN IDENTIFIED FLOOD HAZARD AREA, YOU MUST AGREE TO CONSTRUCT YOUR PROPOSED DEVELOPMENT IN ACCORDANCE WITH THE FOLLOWING SPECIAL PROVISIONS:

SPECIAL FLOODPLAIN PROVISIONS:

1. For RESIDENTIAL structures, the lowest floor (including basement) must be elevated to or above the base flood elevation (100-year flood elevation). See provisions for manufactured homes in local regulations.

2. For NON-RESIDENTIAL structures, the lowest floor must be elevated 1 foot above the base flood elevation, or flood-proofed to withstand the flood depths, pressures, velocities, impact and uplift forces associated with the 100-year flood.

3. For ALL STRUCTURES, the foundation and the materials used must be constructed to withstand the pressures, velocities, impact and uplift forces associated with the 100-year flood.

4. All utility supply lines, outlets, switches and equipment must be installed and elevated so as to minimize damage from potential flooding. Water and sewer connections must have automatic back flow devices installed.

5. You must submit certification on the attached form(s) from a REGISTERED ENGINEER, ARCHITECT or LAND SURVEYOR, that the floor elevation and/or floodproofing requirements have been met. Failure to provide the required certification is a violation of this permit.

6. Other Provisions ..... See attached list ..... None

AUTHORIZATION

I have read or had explained to me and understand the above special provisions for floodplain development. Authorization is hereby granted the permitting authority and their agents or designees, singularly or jointly, to enter upon the property described on the application during daylight hours for the purpose of making inspections or for any reason consistent with the issuing authority’s floodplain management regulation. I further verify that the information provided by me on the application is true and accurate to the best of my knowledge and belief.
